راهنمای پیام‌های خطا

Error 769: The specified destination is not reachable

این Error معمولاً به علت Disable (غیر فعال) بودن کارت شبکه رخ می‌دهد. برای رفع این مشکل باید کارت شبکه را فعال یا Enable کرد.

مسیر فعال کردن کارت شبکه طبق شکل:

Windows XP

Start > Control Panel > Network Connection > Local Area Connection

> Network Connection

> Local Area Connection > Enable

Windows VISTA

Start > Control Panel > Network and Internet > Network and Sharing Center > Manage Network Connections > Local Area Connection

> Network and Internet

> Manage Network Connections

> Local Area Connection

> Enable

Windows Seven

Start > Control Panel > Network and Internet > Network and Sharing Center > Change Adapter Setting > Local Area Connection

> Network and Sharing Center

> Change Adapter Setting

The screenshot shows the Windows Control Panel Network and Sharing Center. The left sidebar has a link labeled "Change adapter settings" which is highlighted with a red box. The main area displays network connections: "CC-SUPERVISOR.P (This computer)", "Network 2", and "Internet". Below these are sections for "View your active networks" and "Change your networking settings". The "Change your networking settings" section includes links for setting up new connections, connecting to a network, choosing homegroup and sharing options, and troubleshooting problems. At the bottom left, there's a "See also" section with links to HomeGroup, Internet Options, and Windows Firewall. The taskbar at the bottom shows various pinned icons.

> Local Area Connection
